Flu Vaccines

According to Centers of Disease Control and Prevention (CDC), Influenza (flu) is a contagious respiratory illness caused by influenza viruses. It can cause mild to severe illness. Serious outcomes of flu infection can result in hospitalization or death. Some people, such as older people, young children, and people with certain health conditions, are at high risk for serious flu complications. The best way to prevent the flu is by getting **vaccinated** each year.

Prime Immediate and Primary Care have received **limited flu vaccines**. We are currently scheduling appointments on first come first basis. Please call our office at **(630) 857-3967** schedule for an appointment.

Thank you!
